As you requested, I checked with [] as to their concerns if this material is released. The attached memorandum from [] substantially reflects the concern of [] in my conversation with him that there will be publicity and the whole matter dredged up again.

It is clear that the report is unclassified and contains no sensitive information. There are no grounds for denying it to the Abzug Subcommittee. Since the report does set the record straight, it may better serve [] for their names not to be omitted if they intend to refer to the report to respond to inquiries from professional organizations. This is my personal judgment. Further, most of the testimony referred to has been published.

It should be noted that the Rockefeller Commission never acknowledged Mr. Colby's letter.
